

Instructor Client Testing Plan

Instructor View

Client should load a list of all students that have taken the exam:

[Back](#)

Student List

Jack Walter

Jacob Williams

John User

Noah Sandford

Test User

Click on a student should display their answers. For example, clicking “Jack Walter” will yield the following:

[Back](#)

What's the best programming language?

☐ C#

☐ Java

☒ TypeScript

☐ Fortran

Computer Science is dope.

☒ False

☐ True

How do you feel today?

Pretty good

Ensure that he has answered “TypeScript”, “False”, “Pretty good”, and **undefined** for the coding answer question, since he did not answer that question.

Back Button

Clicking the “Back” button at the top of the page should bring you back to the list of students.

Feedback

Typing in a feedback box should change the text:

[Back](#)

What's the best programming language?

☐ C#

☐ Java

☒ TypeScript

☐ Fortran

Test Feedback

- . . .

Pressing the “Submit Feedback” button at the bottom should take you back to the list of students. Then, clicking back on the student you were on should persist their feedback.
